## **SPECIAL RECITAL NOTE FOR “FIRST TIMERS”**

This first recital is a wonderful experience for your child. We want to involve the children in a full dance experience not a simple song and dance routine. This is a wonderful chance for your children to experience the performing arts. Our two major goals for our students are:

1. To provide them with the opportunity to experience the excitement and sense of accomplishment that dancing brings.
2. To teach them the true art and technique of dance, in a warm, understanding atmosphere. Therefore, we encourage students to experience being part of a performance. This means wearing and possibly changing costumes, learning a dance, being backstage with the other groups, and working with the other dancers to convey a story through dance.

It is the whole experience of being backstage, with costumes, makeup, and other dancers that make the children feel like members of a very special group. They will cherish this memory for years.
